18 February 1981

Dr. John E. Gibson
School of Engineering and Applied Sciences
University of Virginia
Charlottesville, Va 22901

Dear Dr. Gibson:

This is in response to your letter of 4 February 1981 to the Director inviting the Central Intelligence Agency to consider participation in the University of Virginia's televised graduate courses.

This Agency has recently conducted a number of surveys in regard to the University of Maryland Instructional Television System. Interest in this type of program is limited. This fact, coupled with serious space and budgetary restrictions, makes it impossible for us to pursue this kind of program at this time.

We appreciate your interest in the Agency. If any of the factors now prohibiting our participation should change, I will communicate with you.

Sincerely,

Director
of
Training and Education
